SPECIAL FEATURES /FURNISHINGS:

Renovation opportunity: There is over 2400 sf of living space in this vintage two storey home: 995 sf on the main level, 729 sf upstairs plus 729 SF in the partly finished basement. It contains 3 bedrooms, a den, 2 bathrooms, living room, kitchen, and separate dining room with the possibility of developing a family room or more bedrooms in the currently open concept basement. The original home was built in 1948 and moved to Riverview Drive at a later date, where it was modernized over the years with additional insulation, PVC windows, vinyl siding, propane furnace and hot water tank, flooring, bathroom and kitchen upgrades etc. However, it has been neglected during the past decade and is in need of repair and renovation, which is reflected in the price for an As Is sale.
